

STREET PAVEMENT BONDS

FULL TEXT OF THE ACT PASSED BY THE GENERAL ASSEMBLY.

Amount of Such Bonds Not to Exceed \$500,000 and to be Paid in Five, Ten, Fifteen and Twenty Years From Date of Issue—Manner of Assessing Abutting Property Owners.

The court of common council having at last decided that West Chapel street, from York to Notch streets, and Orange street, from Crown to Cannon streets, shall both be paved with sheet asphalt, and the contest between sheet asphalt, block asphalt and vitrified brick being temporarily suspended, it is expected that the excitement among the advocates of the several kinds of pavements will be allowed to slumber at least until the committee on streets of the court of common council shall make another report on the subject of permanent street pavements.

The general assembly, at its recent session, passed an act authorizing the city of New Haven to issue street pavement bonds and the act was approved July 1. In these times of intense interest and discussion on street pavement matters the bill will prove interesting reading to many citizens and taxpayers who may not be thoroughly familiar with its provisions. In its entirety the bill is as follows:

"The court of common council of the city of New Haven is hereby authorized and empowered, by a concurrent vote of a majority of the members of each branch of said court, present and absent, subject to the approval or disapproval of the mayor of said city, as provided in the charter of the city, to issue, under the corporate name and seal and upon the credit of the city of New Haven, bonds or other certificates of debt, which bonds shall be denominated Street Pavement Bonds of the City of New Haven; the amount of said pavement bonds issued under this act shall not exceed \$500,000, and the same or the avails thereof, when sold as hereinafter authorized, shall be appropriated by said court of common council to the payment of any expense incurred by said city in the original construction in said city of new and so-called permanent pavements; but no portion of said bonds or avails shall be used for any other purpose whatsoever. Any avails of the sale of said bonds may be temporarily borrowed by the city as provided in section 87 of the city ordinances, for the purpose of meeting current expenses of the city; provided said temporary loans shall not in any way interfere with the use of said funds for the purpose of permanent pavements, nor shall any loan be made from said funds for a period of more than four current months. Of the bonds issued at any time by said city, one-quarter shall be payable five years from date, one-quarter ten years from date, one-quarter fifteen years from date, and one-quarter twenty years from date. Said bonds shall be prepared, signed, and authenticated in such manner as the said court of common council may determine, and they shall bear interest at a rate not exceeding four per cent. per annum, payable semi-annually, and may be sold from time to time under the direction of the mayor and board of finance of said city. And said bonds or certificates, when issued as aforesaid, shall be obligatory upon the said city of New Haven to all intents and purposes, and may be enforced and collected in the same manner and to the same extent that debts contracted by municipal corporations in this state are enforced.

Section 2—All pavements laid by authority of the act shall be laid upon the credit of said city, and under the direction and control of its common council, and said city shall have the power to collect a part of the costs of such pavements from the persons and parties, and in the manner hereinafter provided, to wit: On all streets or parts of streets upon which abutting land owners have never paid the city any assessment for a pavement; such land owners on each side of such streets, or parts of streets, shall be assessed and shall severally pay to the city the cost of such abutting land. On all streets or parts of streets upon which abutting land owners have paid to the city assessments for pavements heretofore laid, such land owners on each side of such streets or parts of streets shall be assessed and shall severally pay to the city the cost of such pavement and one-half square feet of such pavement as shall be laid for every front foot of such abutting land, and all public abutting land shall be assessed at the same rate as like private abutting land, hereinafter described. On all streets occupied by the track, or tracks, of any railway company, or companies, said company or companies shall be assessed and shall severally pay to the city the cost of paving and repaving the full length, and nine feet wide for each and every line of track of such railway or railways, now existing, or that may hereafter be laid in any street of said city. All such assessments on the hereinafter described abutting land owners and railway companies shall be payable at such time or times as may be determined by the court of common council. All the cost of such pavements as may be laid under the provisions of this act, above the costs collectible from the abutting land owners and the railway companies, as hereinafter provided, shall be paid by the city, which shall have and own all materials removed from said abutting land owners, said railways, all the premiums on said bonds, and the proceeds of the sale of such old materials, shall be added to the proceeds of the sale of said bonds to be used exclusively for the construction of said permanent pavements.

At the meeting of East Rock Lodge, A. O. U. W., to be held on Thursday evening next, the paper to have been read by R. B. Farren on "Things Old and New" will be omitted owing to the absence of Mr. Farren from town. It will be given at the meeting two weeks later. The paper to be read will be by L. J. Mundell, who will give some reminiscences of a six years' residence in Georgia and Florida.

TWO RECORDS SMASHED.

Wefers and Chase's Wonderful Times in Travers Island Games—Wilkins, the Londoner, Gives a Fluky Exhibition in the Mile and a Half Run.

New York, Sept. 29.—The New York Athletic club had a gala day at Travers Island yesterday, when a record-breaking crowd attended the fifty-fifth open games. The international feature, given to the contests by the competition of some of the English team, increased the demand for invitations. Long before the opening event was started the stand was jammed, youth and beauty filling every vantage point on the spacious island. Behind the deep human fringe surrounding the track were fashionable equipages of every description. The most conspicuous was Jack Hand-dolne's tallyho, which carried an enthusiastic crowd of Mercury football rooters. The Blaine club was present in force, and under the leadership of Job Hedges were T. H. O'Connor, Ed Conway, J. E. H. Smith, Major Southworth, J. H. Ruskin, Andrew Peddie, Major McKelvey, Alderman Fred A. Ware, F. Rowan, Sam Stewart and Henry Borrell.

It looked as though the ill luck of England would never be broken. Bradley, certainly a flyer for fifty yards, got badly away, and suffered defeat by Stage, who has improved a peg or two since the trials for the international games.

Godfrey Shaw was the favorite for the hurdle race, but Stephen Chase, the incomparable New Yorker, simply lost him in the final heat. This time he made a new world's record of 15.25 seconds, which will stand, as he did not touch a single hurdle.

The wind, too, did not favor him, as it blew across the track, and was rather a hindrance to the short-distance men.

Brooke and Kilpatrick distinguished themselves for once by displaying excellent judgment, waiting until the last lap before coming through the field. Horan did not compete, as he is reserving himself for the struggle against Yale next Saturday.

Wefers, the new king of Travers Island, nursed himself carefully, and did not compete in the 50 yards and 120 yards dashes, but when he condescended to do so he makes backs of his opponents and commonplace performances of old records. Thirty-one and a fifth seconds is the new record he established for 300 yards, and that on a poor course for a long sprint, and through a big field of runners.

The mile and a half run was the last event of the day. It afforded the Britishers some slight consolation. Tommy Connell did not start. He will probably race no more this season. Orton was the virtual scratch man, with fifty yards start. Englishman Wilkins had ninety yards start. The little Londoner showed that the proverbial pluck of the Briton had not been left behind on this trip, for, although Orton caught him in the last lap, he fairly beat him out for gameness, and scored England's solitary win out of twenty-eight events.

The victory was the most popular of the day, and the noisy Britisher received thunders of applause, while the band broke out with "God Save the Queen."

There was a hop, skip and jump style of running off the events, which reminded one of plonic games rather than those held by the premier athletic club of America. The large number of persons allowed in the inner ring obstructed officials who were there to work.
